Message from the CEO

At Kaymo Tech, we are committed to delivering infrastructure that drives progress and creates lasting impact. We serve a diverse client base including South African National Roads Agency SOC Limited, municipalities, government departments, and private sector clients, consistently executing projects with precision, discipline, and high standards.

Our focus is clear — to grow into a leading contractor by delivering quality work, building strong partnerships, and expanding our capabilities. We believe that infrastructure is the foundation of development, and every project we deliver contributes to the growth of communities and the economy.

We are not just building projects — we are building a legacy.

Rethabile Mokhako
Chief Executive Officer
Kaymo Tech

From **Roads** to **Sewer** Systems

ABOUT

COMPANY

Kaymo Tech is a dynamic, multi-disciplinary engineering company delivering integrated solutions across **Civil Engineering, Mechanical Engineering, and Information Technology**. Established in 2020 and headquartered in Welkom, Free State, the company has positioned itself as a reliable contractor within the infrastructure development sector across South Africa.

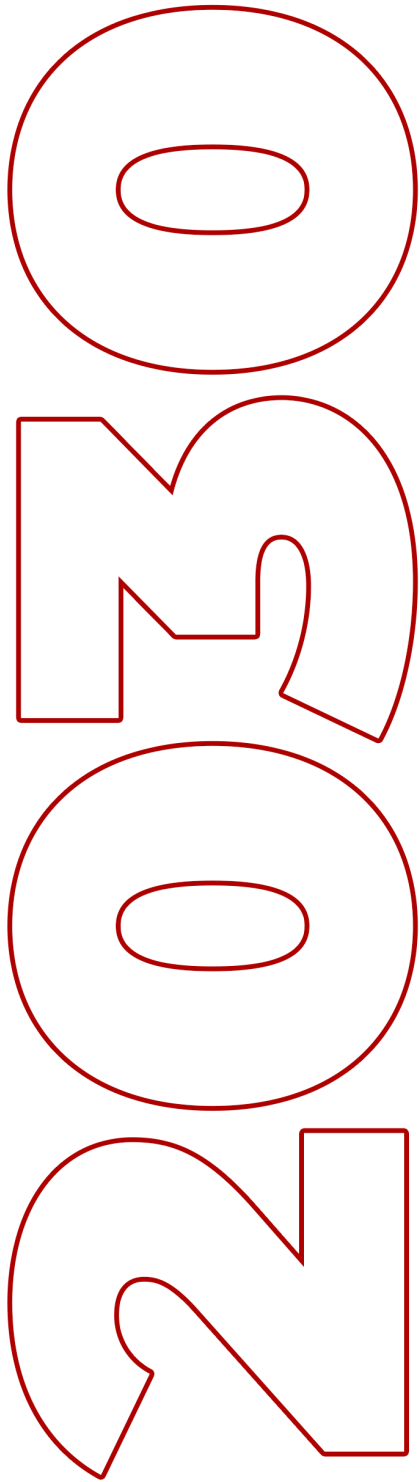

We specialize in delivering high-quality infrastructure projects, combining technical expertise, practical execution, and innovative digital solutions to meet modern engineering demands.

What differentiates Kaymo Tech is our belief that engineering must evolve. We actively integrate Information Technology into our operations to enhance project monitoring, improve efficiency, and support data-driven decision-making. This combination allows us to deliver smarter, more efficient, and future-ready infrastructure solutions.

As a growing company, we are focused on expanding our footprint across South Africa while building a reputation for excellence, reliability, and innovation. Kaymo Tech is not only building infrastructure — we are shaping the future through the integration of engineering and technology.

Kaymo Tech is registered with the Construction Industry Development Board as a contractor with the ability to perform work within the 4CE 4ME PE scope.

Kaymo Tech is a BBBEE Level one Contributor with 100.00% black owned and youth owned.

ABOUT VISION

By 2030, Kaymo Tech envisions becoming a nationally respected infrastructure and engineering group that delivers impactful, sustainable, and world-class solutions throughout South Africa and beyond.

We aspire to stand among the country's leading contractors in road construction, water and sewer infrastructure, mechanical engineering, and infrastructure maintenance by consistently delivering quality workmanship, operational excellence, and innovative engineering solutions.

Our vision is to expand our footprint across all provinces, strengthen our partnerships with government and private sector stakeholders, invest in advanced construction technologies, and develop highly skilled teams capable of executing projects of national significance.

Kaymo Tech is committed to building infrastructure that improves lives, drives economic growth, empowers local communities, and creates long-term opportunities for future generations.

By 2030, we envision Kaymo Tech as:

A nationally recognized contractor trusted by government, municipalities, SANRAL, mines, and private sector clients

A CIDB Grade 8/9 multi-disciplinary engineering company

A leader in road maintenance, stormwater, wastewater treatment, and infrastructure rehabilitation

A catalyst for youth empowerment, skills development, and SMME growth

A proudly South African company building infrastructure that leaves a lasting impact for future generations

Building Infrastructure. Empowering Communities. Shaping the Future.

OUR COMMITMENT TO **SAFETY**

At Kaymo Tech is committed to the highest standards of health and safety and will take all reasonable steps to ensure the health and safety of all employees.

99.9%

We take safety very seriously and are constantly improving our policies and procedures to ensure a safe work environment

We employ safety officers to ensure that all policies and procedures are adhered to and that our zero harm targets will be met.

Safety is our first priority at every stage throughout our projects from the design and planning stages through to completion.

OUR TARGET **ZERO HARM**

At every level our workforce is making zero harm safety our main objective. Our commitment is to provide a safe work environment for our employees and for everyone who visits our work sites.

Our senior management team have a commitment to ensuring that our employees, the public and the environment are safe at all times. Our ultimate goal is to reach zero harm in our workplace

Integrated Engineering

Solutions & Services

Kaymo Tech delivers high-quality civil engineering solutions focused on the development, rehabilitation, and maintenance of critical infrastructure. Our expertise spans road construction, stormwater systems, and water and sewer networks, executed with precision, efficiency, and strict adherence to industry standards. We are committed to building durable infrastructure that supports economic growth and enhances community livelihoods across South Africa.

Road Construction & Rehabilitation

- > Asphalt surfacing and resurfacing
- > Road layer works (subgrade, subbase, base)
- > Road patching and pothole repairs (RRM projects)
- > Milling and replacement of asphalt layers
- > Road markings and traffic signage installation

Stormwater & Drainage Systems

- > Installation of stormwater pipelines and culverts
- > Trenching, backfilling, and compaction
- > Erosion control and water channeling systems
- > Manholes and catch pit construction

Water & Sewer Infrastructure

- > Sewer pipeline installation and maintenance
- > Bulk water supply systems
- > Pump stations and pipeline reticulation
- > Leak detection and repair solutions

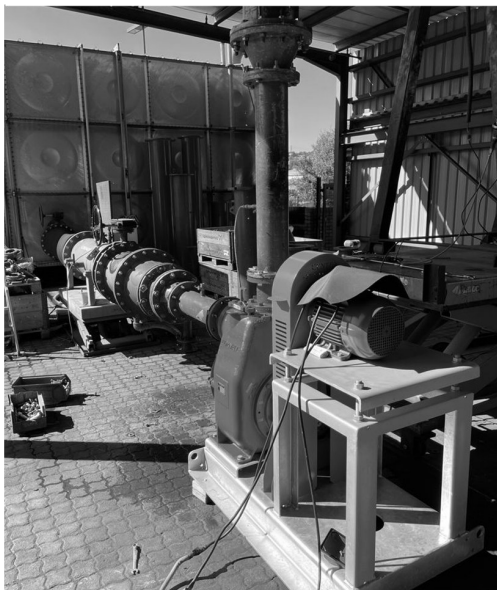

Concrete & Structural Works

- > Concrete structures (slabs, bases, retaining walls)
- > Kerbing and paving
- > Small bridge and culvert construction
- > Reinforced concrete works

Integrated Engineering

Solutions & Services

Kaymo Tech specialises in mechanical engineering solutions for wastewater treatment plants and sewer pump stations, delivering reliable, efficient, and compliant systems that support critical sanitation infrastructure. Our services cover the installation, refurbishment, and maintenance of mechanical equipment, ensuring uninterrupted wastewater conveyance, treatment efficiency, and long-term asset performance for municipalities and industrial clients.

Wastewater Treatment Plant Systems

- > Installation of pumps, blowers, and aeration systems
- > Mechanical installation of clarifiers, screens, and sludge handling equipment
- > Refurbishment and upgrading of existing plant equipment
- > Preventative maintenance and scheduled servicing
- > Emergency breakdown response and system diagnostics
- > Optimisation of plant performance and energy efficiency

Pipeline Mechanical Works

- > Installation of bulk water and sewer pipelines (mechanical components)
- > Valve chambers and pressure control systems
- > Pipe fittings, couplings, and mechanical joints
- > Testing and commissioning of pipeline systems

Sewer Pump Station Systems

- > Installation of submersible and surface pumps
- > Valve systems (non-return, isolation, control valves)
- > Mechanical pipework and fittings installation
- > Pump alignment, commissioning, and testing
- > Pump station upgrades and rehabilitation
- > Routine servicing and fault diagnostics

Mechanical Installations & Commissioning

- > Installation of mechanical infrastructure systems
- > Equipment alignment, calibration, and testing
- > Commissioning and handover support
- > Performance verification and optimisation

Partner **With Us**

Thank you for taking the time to review the profile of Kaymo Tech.

We appreciate the opportunity to present our company, capabilities, and commitment to delivering quality infrastructure solutions across South Africa.

At Kaymo Tech, we remain dedicated to:

- Professional service delivery
- Quality workmanship
- Safety and compliance
- Sustainable infrastructure development
- Long-term partnerships built on trust and performance

We look forward to the opportunity to work with you and contribute towards impactful projects that strengthen communities and drive development.
